## Registration and Access

**Minimum age.** You must be at least 13 years old or the minimum age required in your country to use the Service, and you must confirm that you meet the minimum age requirement. If you are a teenager between the ages of 13 and 17 years old, you must have your parent or legal guardian's permission to use the Service, and they must agree to our Terms of Service. While we have taken measures to limit undesirable training data and outputs, depending on the features that you choose to use, the Service could produce output that is not appropriate for all ages. For instance, if users choose certain features or input suggestive or coarse language, the Service may respond with some dialogue that may involve coarse language, crude humor, sexual situations, or violence. We urge parents to exercise care in monitoring the use of the Service by their teenagers. Parents or guardians who choose to use certain features of the Service to aid in their interactions with their children, including regarding educational, enlightening, or entertaining discussions they have with their children, must make use of the data controls provided in the Service to select the appropriate features for their needs.

**Logging in through a third-party service.** By choosing to login to our Service by using a third-party service, such as Google, Apple, or X, you give us permission to access, use, and store your information from that service, as permitted by that service, which may include log-in
